## **ENERGY MANAGEMENT SYSTEM POLICY**

**As ALTEK DÖKÜM A.Ş., we acknowledge the responsibility of implementing an Energy Management System and are committed to continuously improving our energy performance across all our activities.**

**We commit to:**

- **Providing a framework for establishing and reviewing energy objectives and targets, ensuring the availability of necessary information, access to that information, required resources and support, and ensuring their review and updates.**
- **Continuously improving and documenting our Energy Management System and energy performance in accordance with the purpose and scale of our organization, communicating it to all employees, reviewing and keeping it up to date.**
- **Monitoring and fulfilling all legal, regulatory, and other requirements related to energy.**
- **Implementing improvements to reduce energy consumption and continuously enhance energy efficiency, as well as applying and monitoring the outcomes of these improvements.**
- **Prioritizing energy efficiency in the selection and use of energy-efficient products and services and in design activities to improve energy performance.**
- **Raising awareness among all our employees on energy consciousness.**

**This is our Energy Policy.**
